### Purpose of Scientific Study or Science Education Activity during the reporting year (maximum 4000 characters):

This project is one of two long-term geologic mapping projects being conducted by the State of Virginia under the STATEMAP geologic mapping program. The purpose of the project is to provide detailed geologic map coverage of the entire Interstate 81 Corridor in western Virginia, ultimately in a digital format.

Geologic maps are useful for a variety of land development and conservation purposes and include lithologic and structural information.

### Findings and status of Scientific Study or accomplishments of Science Education Activity during the reporting year (maximum 4000 characters):

Three samples in or adjacent to the park have been collected to date. We intend to collect several additional samples in the park prior to June 30.

**For Scientific Studies (not Science Education Activities), were any specimens collected and removed from the park but not destroyed during analysis?**

Yes
